Professional Profile

Junior Software Developer with a strong foundation in Python, Django, JavaScript, HTML, CSS and SQL, supported by a Level 3 Diploma in Software Development and a Level 5 Diploma in Web Application Development. After an established career in leadership and operations, I retrained full-time for software development, building full-stack web applications and developing practical experience with Git, databases, responsive design and software testing. I am seeking my first software development role where I can contribute, continue learning and grow within an experienced engineering team.

Technical Skills

- **Languages:** Python, JavaScript, HTML5, CSS3, SQL
- **Frameworks:** Django, Bootstrap
- **Databases:** SQLite
- **Tools:** Git, GitHub, Visual Studio Code
- **Concepts:** Object-Oriented Programming (OOP), Software Testing, Responsive Web Design, Version Control, Full-Stack Development

Projects

Workout Tracker

Tech: Python | Django | JavaScript | HTML | CSS | SQLite | Bootstrap

 Live Demo: <https://workout-tracker-app-uk-9863ce88581d.herokuapp.com/>

 GitHub: <https://github.com/DarthCookie45/Workout-tracker-app>

- Developed a full-stack fitness tracking web application using Python and Django.
- Implemented secure authentication, account management and password reset functionality.
- Designed and built CRUD features allowing users to create, edit and manage workout plans and exercises.
- Created a responsive, mobile-friendly interface using Bootstrap, HTML, CSS and JavaScript.
- Integrated an SQLite database using Django's ORM to securely store and retrieve user data.
- Tested, debugged and deployed the application, gaining practical experience of the full software development lifecycle.
- Expanded my experience of database design, user authentication and developing larger full-stack applications.

GameShelf

Tech: Python | Django | JavaScript | HTML | CSS | SQLite | Bootstrap

 Live Demo: <https://gameshelfcollection-601abb6b4d77.herokuapp.com/>

 GitHub: <https://github.com/DarthCookie45/GameShelf>

- Developed a full-stack web application enabling users to organise and manage personal game collections.
- Implemented secure authentication with personalised user libraries and account management.
- Built CRUD functionality for creating, updating and managing game records.
- Developed premium features and statistical insights to enhance the user experience.

- Created a responsive interface using Bootstrap, HTML, CSS and JavaScript.
- Applied Git version control and deployed the application as a live web project.
- Expanded my experience of database design, user authentication and developing larger full-stack applications.

Developer Portfolio

Tech: JavaScript | HTML | CSS | Bootstrap

 Live Demo: <https://darthcookie45.github.io/my-portfolio/>

 GitHub: <https://github.com/DarthCookie45/my-portfolio>

- Designed and developed a responsive portfolio website to showcase software development projects and technical skills.
- Implemented a clean, user-friendly interface using HTML, CSS, Bootstrap and JavaScript.
- Integrated direct links to live applications, GitHub repositories and LinkedIn profile.
- Applied responsive design principles to ensure compatibility across desktop, tablet and mobile devices.
- Created a central hub for demonstrating projects, qualifications and continuous professional development.
- Improved my front-end development skills while creating a professional platform to showcase my work.

Professional Experience

Warehouse Coordinator | Great Bear Distribution | Mar 2021 – Jun 2023

- Coordinated day-to-day warehouse operations, ensuring accuracy, safety and efficiency.
- Investigated stock discrepancies using Warehouse Management Systems (WMS).
- Identified opportunities to improve operational processes and productivity.
- Selected for the company's leadership development programme.

Warehouse Operative | Great Bear Distribution | May 2017 – Aug 2024

- Progressed from Order Picker to multi-skilled operative through consistent performance.
- Provided Control Room cover and first-line support for WMS issues.
- Qualified First Aider and trusted with supervisor-level operational responsibilities.

Apprentice → Head of Games Department | LearnPlay Foundation | 2011 – 2016

- Designed educational game content for schools.
- Led the Games Department and mentored apprentices.
- Maintained gaming equipment and supported educational outreach projects.
